“beverage” does not include beer;

“brewer” means a brewer of beer for sale, that is to say, any person who brews beer for the use of any other person at any place other than the premises of the person for whose use the beer is brewed, and any person licensed to deal in or retail beer, who brews beer;

Licence to brew.
[51/1980
4/1985
6 of 1991].

3. (1) There shall be paid to the Comptroller a duty of two thousand dollars on a licence to be taken out annually by a brewer in Trinidad and Tobago.

(2) Every licence shall be in such form as the Comptroller shall direct, and shall, whenever issued, be granted only on payment of the duty in full, and such licence shall expire on 31st December in each year.

(3) A licence issued under this section shall not authorise the brewer to sell beer other than that brewed by himself, and the quantity to be sold at any one time shall not be less than 4.5 litres or twelve bottles of 375 millilitres each.

(4) If any person brews beer for sale without having in force a proper licence under this Act, he is liable to a fine of four thousand dollars, and all wort, beer, vessels, utensils and materials for brewing shall be forfeited.

(5) If any brewer sells any quantity of beer less than 4.5 litres or twelve bottles of 375 millilitres each, he shall be deemed to be a retailer and is liable to the penalty for retailing beer without a licence.

3A. (1) There shall be charged on beer and shandy produced in Trinidad and Tobago an excise duty calculated on each litre of beer of an original gravity of one thousand and fifty degrees brewed or used in the production of such beer or shandy, as the case may be, and so in proportion for any difference in quantity or gravity.

Excise duty on beer, shandy and other malt beverage. [8 of 1996].

(2) There shall be charged on other malt beverage produced in Trinidad and Tobago an excise duty calculated on each litre of other malt beverage of an original gravity of one thousand and fifty degrees brewed and so in proportion for any difference in quantity or gravity.

4. Nineteen kilograms weight of malt or corn of any description, or 14.5 kilograms weight of prepared grist, or 12.7 kilograms weight of sugar, shall be a unit of material; and the expression "unit of material" includes its equivalents or any such quantities of malt, corn, prepared grist, and sugar, or any two or more of those materials, as by relation to such equivalents shall be equal to such unit of material.

Unit of material. [6 of 1991].

5. (1) Every brewer shall be deemed to have brewed 81 litres of wort of the gravity of one thousand and fifty degrees for every unit of material entered or used by him in brewing.

Charge of duty. [6 of 1991].

(2) The duty on beer brewed by a brewer shall be in respect of every litre of beer, delivered from the warehouse for consumption in Trinidad and Tobago, of the original gravity of one thousand and fifty degrees, and so in proportion for any difference in quantity or gravity as entered in the book by the brewer, or as ascertained by an Officer, whichever is higher.

(3) Duty shall be payable on any deficiency in the production of beer which cannot be shown to the satisfaction of the Comptroller to have arisen due to accidental loss or waste incident to the brewing of beer or the subsequent preparation thereof for consumption.

(4) All beer produced by a brewery shall be deposited in a warehouse and recorded by an Officer as being for consumption in Trinidad and Tobago or for exportation, use as ships' stores or removal to another warehouse.

(5) No beer which is—

- (a) entered for consumption in Trinidad and Tobago, shall be removed from a warehouse unless the full duties have been paid in respect of it; and

Ch. 78:50.

Minister may authorise deduction of certain materials by way of relief.

6. Where the materials used in brewing by a brewer are proved to the satisfaction of the Minister to be of such a description or nature that some deduction from the quantity chargeable by relation to materials should be made, he shall authorise such a deduction from that quantity as shall, in his opinion, afford just relief to the brewer.

Mode of ascertaining gravity and quantity. [6 of 1991].

7. (1) An approved saccharometer and tables shall be used to ascertain the quantity by relation to gravity of all wort; and, in calculating the gravity, a degree of gravity shall be taken as equal to one-thousandth part of the gravity of distilled water at fifteen degrees Celsius.

(2) The quantity and gravity so ascertained shall be deemed to be the true quantity and gravity of such wort.

Mode of ascertaining original gravity.

8. When the original gravity cannot be satisfactorily ascertained by the saccharometer, such gravity may be determined in the following manner:

- (a) a sample shall be taken from any part of such wort, and a definite quantity thereof by measure at the temperature of fifteen or twenty-six degrees Celsius shall be distilled;
- (b) the distillate and residue shall each be made up with distilled water to the original volume and temperature before distillation, and the gravity of each shall be ascertained;
- (c) the number of degrees by which the gravity of the distillate is less than the gravity of distilled water shall be deemed the spirit indication of the distillate;

- (d) the degrees of original gravity standing opposite to such spirit indication in the Table in the Schedule, added to the specific gravity of the residue, shall be deemed to be the original gravity of the wort; Table Schedule.
- (e) the original gravity so found shall be taken to be the original gravity of the wort for charging the duty thereon whenever it exceeds the gravity entered by the brewer or ascertained by the saccharometer.

9. (Repealed by Act No. 8 of 1996).

10. When any materials upon which a charge of duty has been made, or any wort or beer, shall be destroyed by accidental fire or other unavoidable cause while the same are on the entered premises of a brewer, the Minister shall, on proof of the loss to his satisfaction, order that the duty charged or paid be remitted or repaid, as the case may be. Loss by fire or other unavoidable cause.

11. (1) A book in the approved form shall be delivered by an Officer to every brewer, and the following provisions shall have effect in relation to the book, and to the entries to be made therein: Brewing book.

- (a) the brewer shall keep the book in some part of his entered premises at all times ready for the inspection of the Officer, and shall permit any Officer at any time to inspect the same and make extracts therefrom;
- (b) the brewer shall enter separately in the book the quantity of the several materials which he intends to use in his next brewing, and also the day and hour when the next brewing is intended to take place;
- (c) the brewer shall make such entry, so far as respects the day and hour of brewing, twenty-four hours at the least before he begins to mash or dissolve, and, so far as respects the quantity two hours at the least before the hour entered for the mashing and the dissolving respectively;

- (d) the brewer shall, two hours at the least before the hour entered for brewing, enter the time when all the wort will be drawn off the grains in the mash tun;
- (e) the brewer shall, within one hour of the wort being collected, or, if the wort is not collected before six in the afternoon, before six in the forenoon of the following day, enter the particulars of the quantity and gravity of the wort produced from each brewing, and also the description and number of the vessel or vessels into which the wort has been conveyed;
- (f) when fermentation has commenced in any wort before the brewer has entered the quantity and gravity thereof in the book provided for that purpose, the true original gravity of the wort before fermentation shall be entered by the brewer;
- (g) the brewer shall, at the time of making any entry, insert the date when the entry is made;
- (h) the brewer shall not cancel, obliterate or alter any entry in the book, or make therein any entry which is untrue in any particular;
- (i) the brewer shall, if so required by the Comptroller, send notice in writing containing the required particulars to the proper Officer forty-eight hours before his next brewing is intended to take place.

(2) For any contravention of this section the brewer is liable to a fine of four thousand dollars.

Marking of vessels and rooms and positions of vessels.

12. (1) Every brewer shall cause to be legibly painted with oil colour, and keep so painted, on some conspicuous part of every mash tun, underback, wort receiver, copper, heating tank, cooler and collecting and fermenting vessel intended to be used by him in his business, and on the outside of the door of every room and place wherein any part of his business is to be carried on, the name or initial letter or letters of the name of the vessel, room or place, according to the purpose for which it is intended.

(2) When more than one vessel, room or place is used for

the same purpose, all such vessels, rooms or places shall be marked by progressive numbers.

(3) All mash tuns, underbacks, wort receivers, coppers, heating tanks, coolers and collecting and fermenting vessels shall be so placed and fixed as to admit of the contents being accurately ascertained by gauge or measure and shall not be altered in shape, position or capacity without two days' previous notice in writing to the proper Officer.

(4) For any contravention of this section the brewer is liable to a fine of four thousand dollars.

13. Every brewer shall, before he begins to brew, make entry in the required form of all premises, rooms, places and vessels intended to be used by him for his business, specifying the purpose for which each room, place and vessel is to be used, and the mark by which it is distinguished. The brewer shall sign the entry, and deliver it to the proper Officer.

Entry of premises.

14. (1) Every brewer who uses any description of sugar, whether cane sugar, saccharum, glucose, or other saccharine substance, or extract, or syrup (hereinafter referred to as "sugar") in the brewing of beer or in an authorised manufacture shall, before he begins to store or use the same, make entry of a room on his premises (hereinafter called a sugar store) for the purpose of storing the same.

Sugar store and accounts of sugar. [45 of 1980].

(2) The brewer shall not receive any sugar unless the same is accompanied by an invoice from the seller showing the marks on each package and the particulars of the description and weight or quantity of the contents.

(3) All sugar received shall be deposited in the sugar store and may not be removed except for use in brewing or in an authorised manufacture.

(3A) Sugar removed from the sugar store shall be accounted for by appropriate entries in the brewing book where the sugar is used in brewing or in a separate record kept for the purpose where the sugar is used in an authorised manufacture.

(4) Accounts may be taken, as the Comptroller may direct, of every description of sugar received by a brewer, and the brewer is hereby required to deliver to the proper Officer the particulars of all sugar of each and every description in his possession and every invoice relating thereto, and the brewer shall thereafter deliver to the Officer all invoices relating to sugar of every description subsequently received.

(5) The Officer shall keep an account of sugar of each and every description received by the brewer, and shall debit the brewer with the quantities specified in the invoices produced to him, and credit the brewer with the quantities entered in the brewing book as having been used in brewing or in the record referred to in subsection (3A) as having been used in an authorised manufacture.

(6) If, on taking account of the stock at any time, the quantity of any description of sugar in the possession of the brewer exceeds the quantity of that description which ought, according to the account kept by the Officer, to be in his possession, the excess shall be forfeited; and if the quantity is less than the quantity which ought, according to the account kept by the Officer, to be in his possession, any deficiency above two per cent on the total on the debit side of the account shall be deemed to have been used in the brewing of beer without due entry in the brewing book, and duty shall be charged in respect thereof as if the deficiency had been so used.

(7) If any brewer has any sugar in his possession elsewhere than in the sugar store or the mash tun or other vessel entered for dissolving sugar, or in due course or removal thereto, or refuses to produce invoices when so required, or uses any device to prevent the Officer taking a true account of all sugar in his possession, he is liable to a fine of two thousand dollars, and the sugar found elsewhere than mentioned above is liable to seizure.

Adulteration
of beer.
[45 of 1980].

15. (1) A brewer shall not adulterate beer, or add any matter or thing thereto (except finings for the purpose of clarification, or other matter or thing sanctioned by the Minister) before the same is delivered for consumption, and any beer found to be adulterated or mixed with any other matter or thing (except as mentioned above) in the possession of a brewer shall be forfeited, and the brewer is liable to a fine of two thousand dollars.

(3) The use of beer in the manufacture of shandy is not a contravention of subsection (1).

16. (1) All grains in a mash tun must be kept untouched for the space of one hour after the time entered in the book as the time for the wort to be drawn off, or if not then drained one hour after being drained, unless the Officer has attended and taken an account of the grains.

Operations in
course of
brewing.

(2) All wort shall be removed successively, and in the customary order of brewing, to the underback, coppers, coolers and collecting and fermenting vessels, and shall not be removed from the last-mentioned vessels until an account has been taken by the Officer, or until after the expiration of twenty-four hours from the time at which the wort is collected in the vessels.

Payment for samples.

(3) Any Officer may at any time take samples of any goods or commodities chargeable with any duty of Excise or Customs, but if the samples are taken after duty has been charged and paid on the goods or commodities, he shall pay for the same, if demanded, at the current wholesale price of the goods or commodities.

20B. (1) A brewer engaged in the manufacture of shandy shall keep a record of the volume of all beer brewed by him and used in the manufacture of shandy, and he shall produce the record for inspection at the request of the Comptroller.

(2) A brewer who fails to comply with subsection (1) is liable on summary conviction to a fine of four hundred and eighty dollars.
